

Several such results, in fact, are provided with proofs and other auxiliary results.

Chapter 11 is an excellent, comprehensive, readable survey for the research areas just listed.

The chapters are well written in general (PPT), with the writing being excellent throughout.

Ch. 1. Not completely readable.

Ch. 2. Some results are unproven (some proofs appear).

Ch. 3. Some results are not readable.

Ch. 4. Excellent, several proofs appear (with notes).

Ch. 5. Good (with notes).

Ch. 6. Also good (a couple of proofs appear).

Ch. 7. Not so good.

Ch. 8. Excellent (with some additions).

There is an appendix with the first three chapters.

—————

There are no general, good discussions, or good (or no) references.
